

GFG Instrumentation

A Complete Line of Gas Detection Solutions

CC 28

Combustible Gas Detector

- Full-featured smart transmitter for combustible gas measurement
- Non-intrusive cal adjust
- Sensor lasts 5 years or longer
- Also available for wide range of toxic gas measurement

CI 21

LOW Maintenance Ammonia Detector

- Stable long life charge-carrier-injection sensor
- sensor unaffected by high concentration exposure
- Low temp operation to -40° F (or lower)

ZD 21

Oxygen Detector

- Extremely stable O₂ sensor lasts 5 years or longer
- Fast response

RAM

4021

Continuous Respirable Breathing Air Monitor

- Continuous compressed air CO monitor
- Integrated dew point measurement
- Robust easy-to-operate design
