

GfG Instrumentation

The New Standard
in **AMMONIA** *Detection*

CI 21

Low maintenance charge carrier injection sensor

- Robust, long-life sensor withstands high NH₃ exposure
- Low Temp operation to -40° F (or lower)

EC 30

Full-featured smart transmitter

- Robust industrial design
- Fully-automatic one button calibration adjustment

EC 22

Highly accurate electrochemical sensor

- Exceptionally compact design
- Easy conduit fitting installation
- Economical price

CS 21

Low cost solid state sensor

- High sensitivity to a broad range of refrigerants
- Long sensor life
- Fast response
